

Editor's Comment:

Concerning the manuscript entitled: (HEALTH RISK ASSESSMENT FOR CARCINOGENIC AND NON-CARCINOGENIC HEAVY METAL EXPOSURES FROM PEPPER FRUITS CULTIVATED IN KATSINA STATE, NORTH WEST NIGERIA)

As I went through the response of authors to reviewers comments and by checking the revised manuscript, it is clear that authors responded well to the reviewers comments, and therefore, this manuscript is to be accepted.

Note: reference 8 (Balkhaira KS, Ashraf MA, Field accumulation risks of heavy metals in soil and vegetable crop irrigated with sewage water in western region of Saudi Arabia. Saudi Journal of Biological Sciences 2015; 23 (1): S32-S44) is repeated as part of reference 7, so authors have to delete it from reference 7
