

Editor's Comment:

The authors seem to have made the necessary corrections. However, the two literature that the referee mentioned and that I wrote below are not in the reference list. Needs to be added. The title of the article, as the referee pointed out, is too long. It's still long, although the authors make a little shortening. I suggest that the name of the article must be written as follows.

"Ghassemi et al., 1995" and "Ashrafi et al., 2014" should be added to the reference list

Impact of water salinity levels on the tolerant and sensitive wheat cultivars (advice)
