

**Editor's Comment:**

The Article is about "Dedekind theory of real numbers"

As per reviewers report article can be accepted for the publication.

1. Author has used so many notations, better for understand ability can be included as Appendix.
2. In page 1 and 2, For  $R_i$ ,  $i$  varies from 0 to  $\omega_0$  or 1 to  $\omega_0$ .
3. In page 2 it is mentioned "The main results of this paper were announced in [12]." Then how does the results, theorems and lemmas of this paper differ from that paper. Though referred paper corresponds to the same author.
4. In page 3 line 11 and 12 what is the difference between first-order types and second-order type.

later on full work is carried out by lemmas and theorems.
