

Editor's Comment:

Please find my edits as below - my editorial decision is to accept after these corrections are done.

1. Introduction- delete the following as this statement is repeated thrice. "Rivers State – in which Ogoniland, the study area for this report, is located – is situated in the coastal plain of the eastern Niger Delta. Its topography is mainly characterized by rivers, lakes, creeks, lagoons and swamps of varying dimensions. Rivers State – in which Ogoniland, the study area for this report, is located – is situated in the coastal plain of the eastern Niger Delta. Its topography is mainly characterized by rivers, lakes, creeks, lagoons and swamps of varying dimensions."

1. Introduction- please replace susceptibility by "susceptible" in the following sentence-"The upland coastal sand ridge zone is susceptibility... "
2. Discussion- "The intraocular pressure of those in the Riverine area was found to be higher than those in the upland communities with a statistically significant difference – $P=0.001$. Please put p value in parenthesis instead of - as follows".... statistically significant difference ($P=0.001$). "
3. Discussion last paragraph- This is in contrast to Omoni's series where glaucoma was- replace were by "where"•
