

Editor's Comment:

Since the quality of the study is acceptable for the publication in the journal, tools for objective function optimization are strong in the methodology. I confirm and accept it related to Manuscript number: 2020/JGEESI/62699, Journal Name: "Journal of Geography, Environment and Earth Science International", Manuscript Title: Spatial analysis of the mode of management and conflicts of use of water resources in the watershed of the Lobo River in Nibehibe (central-western Côte d'Ivoire).
