

Editor's Comment:

I have carefully gone through the reviewers comments and the revised manuscript and found the author has not attended to some suggestions requested by reviewers.

There are a lot of spelling mistakes and editorial changes to be done which I have marked in green colour in the attached manuscript.

Reviewers asked the author to include the latest references. In the review report author mentioned it is done. But it is the same as the original. Some references in the text have not been included in the list.
