

Editor's Comment:

The paper can be published after making minor revisions:

- The author(s) seems to be non-native English speakers. I recommend to use professional English editing which would contribute to get a better paper. For example, I suggest to replace "Methods Research" with "Research Method" at page 7, to replace "Conclusion and Suggestion" with "Conclusions and suggestions" because there are more than one. At page 10, 5.2. "Suggest" replace with "Suggestions".

- I missed section C of the paper. At page 5 begin section D after section B.

- Also, the references should be revised: for example, source 26!

For easier approval it would be easier if you require to the authors to use the option "Track changes" in order to see the revisions made after reviewers suggestions.
