EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>I my opinion the manuscript could be published after under noted corrections.</p> <p>I recommend the introduction of more actualized references. In the keywords delete PPEs. In the introduction they focus on transmissible diseases, which diseases? The results might be start by a sentence and not Table 1..... The questionnaire should be insert in the manuscript.</p>	<p>All suggested editorial comments have been effected.</p>
