**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The authors should modify the title of the article. Two selected hospitals may not be sufficient representative of the whole south-south Nigeria. Hence, the title should be modified to capture that fact that the study was carried out in only two hospitals.</li> <li>2. There should be a separate section for conclusion, acknowledgement, and limitations of the study. There are not part of the discussion.</li> <li>3. The study objectives should be a distinct section in the abstract. It should be separated from the background section.</li> <li>4. The conclusion is not clear. It should be re-written. Please remember, the conclusion should be in-line with the study objectives.</li> <li>5. "Since the pattern of NCDs has remained similar"..... Similar to what?</li> <li>6. Lots of typo and grammatical errors. The authors are advised to subject the article to English language editing.</li> </ol>
