

SDI Review Form 1.6

Journal Name:	Asian Food Science Journal
Manuscript Number:	Ms_AFSJ_66246
Title of the Manuscript:	PHYSICO-CHEMICAL, ALVEOGRAPH AND ANTI-NUTRITIONAL PROPERTIES OF BREADS FORMULATED FROM WHEAT AND PAWPAW (CARICAPAPAYA)SEED FLOUR BLENDS
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The work is very good because it proposes the use of an industrial waste such as papaya seeds, in order to increase the nutritional value of the bread. The general characteristics of the bread are affected, as in all cases where part of the wheat flour is replaced. At work, a very good analysis is made of all the properties, of the minerals and of the antinutrientes.	
Minor REVISION comments	It is requested that in conclusions the word vitamins is eliminated, since they were not analyzed in this work.	
Optional/General comments	For future work, it would be good to analyze the bioavailability of minerals, knowing that antinutrients are increased, due to the incorporation of papaya seeds.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
