

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_53770
Title of the Manuscript:	Experimental study: the relationship between <i>Plasmodium falciparum</i> gametocyte density and mosquitoes infectiousness in two sympatric ethnic groups
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Although the work is more than interesting, it has some methodological inconsistencies.</p> <p>The question is: why did the number of mosquitoes per group not normalize? If that had been done, the results would be more consistent despite a difference in the oocystic load.</p>	
Minor REVISION comments	<p>The introduction is very short and in fact only the second part is relevant. I suggest to eliminate the first paragraph that is very repetitive in all papers alluding to malaria. I suggest giving greater emphasis to the second paragraph, look for more references and expand more, even, about the Fulani and Mossi to better contextualize to the readers.</p>	
Optional/General comments
