

SDI Review Form 1.6

Journal Name:	Advances in Research
Manuscript Number:	Ms_AIR_61012
Title of the Manuscript:	Genetic variability, correlation and path coefficient analysis for quantitative traits in chickpea genotypes
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The research is well written. However, it is not something innovative, similar publications exist only with different periods of the year and the number of genomes studied. In addition, adjustments must be made to both the title of the manuscript. The title is the same already published by Bhanu and Saroj (2017). Also in the introduction, divide the paragraph more, detail the genetic variables more, and better justify the reason for the research. Describe the methodology, describing where it was done and how. Synthesize the conclusions, as it is similar with a discussion of the work, besides said there are points that fit in the introduction as well as in the material and methods.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
