PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction Part: Kindly change the sentences or paraphrased it: Public health actions, such as social distancing, can make people feel isolated and lonely and can increase stress and anxiety. Some common causes of stress during the corona virus pandemic are uncertainty, lack of routine and reduced social support.</p> <p>Stress is not always bad in small doses , it can help perform under pressure and motivate you to do you best . But when you are constantly running in emergency mode , your mind and body pay the price . You can protect yourself recognizing the signs and symptoms of stress and taking steps to reduce its harmful effects.</p> <p>Clarify more sentences about the study and please references every sentence where needed.</p> <p>No need to describe the keywords. It will write after Abstract.</p> <p>Objectives of the study: Use 1, 2, 3, 4.....</p> <p>In total, 23 systematic reviews included 499 primary studies; there were 11 meta-analyses and 12 narrative reviews.....Some interventions appeared to lead to deterioration in mental health and absenteeism outcomes. While psychological support is being provided to patients and healthcare workers, the general public's mental health requires significant attention as well. This systematic review aims to synthesize extant literature that reports on the effects of COVID-19 on psychological outcomes of the general population and its associated risk factors.</p> <p>4. ANALYSIS OF DATA :- More Discussions are needed in this sections.</p> <p>In the conclusions part, you can use recommendations and also encourage future studies.</p>	
Minor REVISION comments		
Optional/General comments
