

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Advances in Agricultural Research</a>
Manuscript Number:	Ms_AJAAR_62503
Title of the Manuscript:	The response of Fordhook giant / Swisschard ( <i>Beta vulgaris</i> var <i>Cicla</i> ) and Mustard ( <i>Brassica Juncea</i> ) spinach vegetables to irrigation with saline water.
Type of the Article	Research paper

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Spinach is basically tolerant to salinity stress. Nevertheless, the variety selected by the authors seems to be somewhat less tolerant. It would have been better if this work was done with more sensitive plants. But I hope the aim of the work is to study the performance of the two varieties in high saline conditions thereby promoting its cultivation. The study is well carried out and well presented. Images of the plants if provided might have given more emphasis on the data provided.	
<b>Minor</b> REVISION comments	-	
<b>Optional/General</b> comments	-	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
