

SDI Review Form 1.6

Journal Name:	Asian Journal of Applied Chemistry Research
Manuscript Number:	Ms_AJACR_64409
Title of the Manuscript:	A structural investigation on polystyrene with cyclohexene mid-chain group: thermal stability and self -assembly kinetics in nonpolar and polar aprotic solutions
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1. The critical aspect of study that has been taken into account, to perform the experimental investigation, the results of which are technically discussed in the manuscript, can be highlighted & detailed in the initial section- like* potential applications & possible usage of polystyrene* needs to be discussed properly based on the complete summary of the exhaustive survey of the reported work.</p> <p>2. The experimental setup, results are technically apt and discussed properly.</p> <p>3. Besides, the observations of the performed experiment, the inference based on the outcome of the experimental investigation should be given. Like- which technological applications of nano carrier micelles of PSt-CH-PSt can be potentially benefited? Also the future scope of the work !!</p>	
Minor REVISION comments	<p>1. Figure 7 shows the molecular structure of a compound. The source from which it is extracted i.e. the citation of the source is required, Fig. 7[Reference].</p>	
Optional/General comments	None
