

SDI Review Form 1.6

Journal Name:	Asian Journal of Biotechnology and Bioresource Technology
Manuscript Number:	Ms_AJB2T_61578
Title of the Manuscript:	Isolation and Characterization of a Novel p,p'-DDT-degrading Bacterium: Aeromonas sp. Strain MY1 from Agricultural Soil
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The abstract not in a standard form. Why does the need of all the steps of the word denoted in abstract? Abstract should reflect the importance and novelty of the work with brief description of methodology and the result.	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Reference need to be arranged in proper way. It can do either in alphabetical order or chronological order of year of which was published. 2. As majority of the heavy metals are inhibitory in action, and only Fe shows the enhancement, what is the relevance of the study? Please justify. 3. The biocleaning potential of the organism is not specified. Try to add that too. 	
Optional/General comments	No	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
