

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Biotechnology and Genetic Engineering</a>
Manuscript Number:	<b>Ms_AJBGE_54815</b>
Title of the Manuscript:	<b>Antimicrobial activities and GC-MS analysis of endophytic fungi isolated from <i>Pluchea dioscoridis</i> and <i>Withania somnifera</i> medicinal plants</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>The author did not mention the method of identification with reference (<b>very important</b>) of endophytic fungi (genus, species and variety): macroscopy observation, microscopy observation and others...</li> <li>Some pictures of endophytic fungi isolated are also important.</li> <li>Structures of isolated compounds are necessary.</li> <li>Tables of results must be included the corresponding text, not at the annex.</li> <li>The article has no general conclusion.</li> </ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>In the abstract, the author presented isolated yeast but in the text, it doesn't appear. What species is it? And what are the identification methods?</li> <li>I suggest to modify the key-words antimicrobial activity to antibacterial activity since there was no antifungal activity.</li> <li>Verify the spelling of Chloramphenicol in the text.</li> </ol>	
<b>Optional/General</b> comments	In general, this article should be improved, especially at the level of section of discussion "antimicrobial activity".	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
