PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> -The topic is vast but the information and description included are shallow -Objectives are not clearly indicated. Thus, it is mandatory to state the objectives -The analysis is made using descriptive tools only. It would give more sound if you make some simple tests like 't' and chi-square' to confirm the validity of the research -The methodology part needs detail explanation about the sampling procedures and method undergone. -4 pts likert scale is not common and advisable. It is better to include(make) 3 or 5 if the middle response (uncertain) is available. 	
Minor REVISION comments		
Optional/General comments
