Manuscript Number:	Ms_AJGR_58421
Title of the Manuscript:	Global Warming and Sea Level Rising: Impact on Agriculture and Food Security in Southern Coastal Region of Bangladesh
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1- It is good to write a complete abstract, but concise description of the work is better.</p> <p>2- Giving more information on method process and included further discussion of the method.</p> <p>3- It seems to be that equation $y= \dots$, and value R^2 are very important inside the Figs 3 to 6. So it is better to define both of them.</p> <p>4- Adding more content in the conclusion.</p> <p>5- Should write the all words in full and place the abbreviations in parentheses after.</p>	
Minor REVISION comments	<p>Interesting notes may be added :</p> <p>1- Water is the path to reaching the 2030 Agenda and the Paris Climate Agreement.</p> <p>2- By 2050, global water demand is expected to increase by 55 percent.</p> <p>3- Politicians and Media started talking of water wars ... instead many River water agreements were signed.</p> <p>4- Global warming increased water stress.</p>	
Optional/General comments
