

SDI Review Form 1.6

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_49842
Title of the Manuscript:	THE INFLUENCE OF BLOOD GROUPS ON DISEASES PATTERN GLOBALLY
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I have some advice.</p> <ol style="list-style-type: none"> 1. Abstract: Delete the description regarding pylori, which is redundant. 2. Introduction. You wrote first the relationship between "infection" and blood type, and next wrote the relationship between "metabolic disease" and blood type, and then, within this same paragraph, return back to the relationship between "infection" and blood type. Please restructure the Introduction. 3. This is the review and then you had better state it in the Title, Abstract and Introduction last. 4. ABO: Delete the first paragraph: this is common knowledge. No need to write it. 5. A chapter of "ABO and pylori" should be just after "gastric cancer" and before "pancreatic cancer" chapter. 6. Some journal has Issue number and others not. Be consistent. 7. Add at the last or around the following meaning. "Although we retrieved as many articles and literature regarding this issue as possible, there may be other diseases or conditions that may be closely associated with blood typing. We here described some typical or well known conditions, whereby highlighted this issue." 	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
