

SDI Review Form 1.6

Journal Name:	Asian Journal of Medicine and Health
Manuscript Number:	Ms_AJMAH_63252
Title of the Manuscript:	The prevalence of multi-drug resistant organisms and their outcomes in an ICU in Mauritius: an observational study
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It would be important to differentiate the source of the culture e.g. MRSA may be a nasal colonizer in a patient that is admitted for some other pathology and may be beneficial to define culture results per site. Of the coagulase negative staph – how many were deemed to be contaminants and how many were thought to be clinically relevant – repeat cultures etc Of the 347 cultures that were done, it would be important to identify which cultures were from different sites in the same patient and how many of these cultures were repeat cultures on the same patient.	
Minor REVISION comments	Some of the other results may be better depicted using tables – e.g. for the sources of cultures – where were the other cultures taken from.	
Optional/General comments	Please give an indication of how many ICU beds and bed occupancy rates	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
