Compulsory REVISION comments	<p>Thanks for inviting me to review the manuscript titled "Patients' spirituality in clinical practice: Physicians' attitude and self-reported behaviour at a tertiary health facility, Southern Nigeria" for the AJMAH. Attached, please kindly find is a revised version of the manuscript including my changes/corrections that appear in red color. My decision is "Minor revision". Few comments are as follows:</p> <ol style="list-style-type: none"> 1. The title can be changed to "Physicians' attitude towards patients' spirituality at a tertiary-care health facility in Southern Nigeria" 2. In the "Result" section, the data in the tables should not be repeated as a text (delete the text as marked in the red color). 3. Each table should be inserted in a separate page. 4. The manuscript requires language editing to correct spelling mistakes (highlighted in red color). 5. The word "chaplain" needs to be changed to "religious leader" everywhere in the text. This is important to allow generalization of the concept of R/S to include other religions. 6. The "Discussion" section needs to be more concise.
