

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Biology</a>
Manuscript Number:	Ms_AJOB_60533
Title of the Manuscript:	HAEMATOLOGICAL AND HISTOPATHOLOGICAL EFFECTS OF ARTEMISININ-BASED COMBINATION THERAPY IN HEALTHY MICE.
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>None</b>	
<b>Minor</b> REVISION comments	<b>None</b>	
<b>Optional/General</b> comments	The potential effects of ACT are well approved in several studies and recommended by WHO as well. Moreover, the adverse events of ACT or the artemisinin monotherapy are documented with enough studies. So, it would be a suitable option to design the control group which receives ACT plus antioxidant agent to gain the potential effects of ACT from one side and avoid liver toxicity effects of the ACT as well.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	<b>Mohamed Medhat Abdelwahab Gamaleldin</b>
Department, University & Country	<b>Beni-Suef University, Egypt</b>
