

SDI Review Form 1.6

Journal Name:	Asian Journal of Chemical Sciences
Manuscript Number:	Ms_AJOCS_52856
Title of the Manuscript:	Synthesis, Characterization, Spectral Studies and antimicrobial Study On Mixed Ligand Complexes of Chloro-arsenic(III) Derived from β -Ketiminates & Piperidine dithiocarbamate Ligand Moity
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author has synthesized mixed ligand complexes of $As(III)Cl_3$ with reagents: β -ketiminate and piperidine dithiocarbamate to investigate antimicrobial activities. The author has examined antimicrobial activities of the complexes and ligands i.e. β -Ketiminate (L1-9) and Pipridine dithiocarbamate. $As(III)Cl_3$ showed also antimicrobial activities. Author should also include the antimicrobial activities of the $As(III)Cl_3$ in the RMS.	
Minor REVISION comments	The latest references should also include in the RMS.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
