PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The region of Maramureş has been a mining basin, i.e. it directly falls into the field of geology. The author describes in his manuscript the philatelic movement in this region, which in the previous years was a natural tradition. The author shows a high level of interest of local philatelists to the activity and live of miners, which influenced them to make appropriate stamps, postcards, occasional envelopes, etc. They also carried out philatelic exhibitions dedicated to celebration of "Miner's Day".</p> <p>So, the author describes the development of his local geological region and the manifestation of its labour life though the projection on to the philatelic movement.</p> <p>It seems to me such a study would be interested to the readers involved in geology.</p> <p>I think the manuscript could be published in the present form.</p>	
Minor REVISION comments		
Optional/General comments
