

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Crop Science
Manuscript Number:	Ms_AJRCS_53087
Title of the Manuscript:	Prospects of integrated application of Moringa (Moringa Oleifera) Leaf extract, NPK fertilizer and poultry manure on Okra (Abelmoschus esculentus) Production
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Anyaegbu, P.O., Iwuanyanwu, U.P. and Omaliko, C.P.E.,(2013); Comparative Evaluation of Effects of Moringa oleifera Extracts and different fertilizers on the Growth Performance of Telfaria occidntalis. <i>International Journal of Applied Research and Technology</i>. 2(11): 127 – 134 3. The references in the reference list were not in the ascending order. Follow guidelines. 4. In table 1 pH was given as a percentage ????? 5. Table 4 has given only 5 treatments 6. The conclusion in the abstract stated that 'The results showed that the application of PM+ML significantly improved the growth and yield of okra, hence poultry manure and moringa leaf should be used instead of NPK fertilizer, which can also lower the cost of production.' was different from the text. In the text it stated that' The results of this study showed that solely application of moringa leaf extract, as a growth enhancer or biostimulant increased the growth and yield of okra. It also indicated that the complimentary application of moringa leaf especially with poultry manure increased the growth and yield of okra significantly, thus application of
