General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sd-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Please check again line 82, because table 1 and discussion section described that group I is control. In table 2, you should explain the values; 1/64, 1/80 etc. (dilution?) In table 3, please check again title "The difference between SFDT and IHA was statistically significant in all routes of administration (P>0,005)", since P values are not significantly different.	
Minor REVISION comments	You should use "bradyzoite" consistently, not "bradyzoid" or "bradizoites" In line 187 and 190, "," should be added after "in this study".	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
