General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract content is in italics. Abstract to be concised to 250 or less words. Introduction is too big. Can be made short. Figures –original diagrammatic representation can be given. Reference style to be followed.	
Minor REVISION comments	As per the review comments given. Manuscript in general can be reduced to limited pages with salient points.	
Optional/General comments	The work has to be taken to clinical trials for further confirmation and authenticated result as it is limited to only <i>in vitro</i> . Spelling mistakes to be thoroughly checked. Tables can be still made clear and legible. Good work but needs revision.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
