

SDI Review Form 1.6

Journal Name:	Asian Journal of Soil Science and Plant Nutrition
Manuscript Number:	Ms_AJSSPN_61601
Title of the Manuscript:	Effects of nutrient enriched municipal solid waste compost on yield and nutrient content in cabbage in alluvial soil
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Please keep the citation Please mention the field layout design of your experiment. Plases correct the value of individual head weight in the table 4 because the values are misplaced.	
Minor REVISION comments	In fig 1 it would be better if you have put the standard error bar. In table 4 T ₂ is also performing well in all parameters except individual head weight, why? Result discussion part is weak so please try justify your result more clearly with some relevant citation.	
Optional/General comments	If you have soil pH and soil organic matter data, please incorporate them too because soil reaction and SOM play an important role in soil nutrient availability and soil properties improvement.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
