

SDI Review Form 1.6

Journal Name:	Asian Soil Research Journal
Manuscript Number:	Ms_ASRJ_63161
Title of the Manuscript:	GPS Based Soil Profile Study in Respect to Morphological and Nutrient Analysis in Pedon of Ganjam District
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The introduction is brief, the objectives and problem statement should be highlighted within the introduction 2. The names of the communities in Fig. 1 are not legible 3. The author(s) should be consistent with the use of units (mg/kg or mgkg⁻¹) 4. The author(s) have not discussed the implications of the results but only stated the values of results. For example the implications of the amount of elements in the soil on plants around the communities should be properly discussed. (what are the effects of copper, iron, zinc, boron on plant growth) 5. The conclusion aspect should be highlighted in bullet points for clarity 	
Minor REVISION comments		
Optional/General comments	Use of English should generally be improved upon
