

SDI Review Form 1.6

Journal Name:	Cardiology and Angiology: An International Journal
Manuscript Number:	Ms_CA_61865
Title of the Manuscript:	Marker wire technique for precise LAD ostium stenting
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors present an interesting case of a precise implantation of an ostial LAD stent. The case is well presented and the technique correctly explained. The main issue that should be taken into consideration before accepting the manuscript, is that in fact there is not a novelty here since there is a recent reported case with the same technique. (Zero contrast angioplasty of LAD ostium by marker wire technique. Rahman et al. Interventional Cardiology 2020),	
Minor REVISION comments	Discussion section is interesting, perhaps could be improved by adding some alternative techniques. Similar techniques like draw-back technique (balloon as a marker) or Szabo could be commented in the discussion section	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
