

SDI Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_53657
Title of the Manuscript:	Genetic variability in chickpea (Cicer arietinum L.) under late sown condition
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> ❖ The study title under late sown date and the study aim under heat stress conditions. What is the relation between these topics? The aim should be clear. ❖ What is recommended planting date to compare with late sown date? ❖ The author should establish another experiment under normal sown date to have the ability to make comparison between late and normal sown date for better selection. ❖ If the study under heat stresses conditions, the author should write the optimal temperatures and the heat stress degrees. ❖ One season is not enough to study this large number of genotypes under heat stress or late date sown. 	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
