PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article related to the alarming influence of forests and climate change surrounds existing problem statement thoroughly rather than a proposed solution. Only the concluding part has some information of research gaps. The researcher has conveyed less opinions and more referenced-based contents. In terms language, it is lucid and clear except few errors being apparent. The number of references are a great deal for such a short article.	
Minor REVISION comments	Research methodology is not specified	
Optional/General comments		

PART 2:
