General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The topic is quite interesting. However, the following should be taken into consideration: (1) The economic condition and employment status of the study area as well as the country should be included in introduction. (2) Only income information is not enough for a project's viability. Information concerning expenditure should also be included in the data and result section.	
Minor REVISION comments	There are many grammatical mistakes that require a thorough check. There are also mistakes and inconsistencies in referencing. Moreover, the references are not also in line with the author's guidelines. References are mostly old. Two or three latest references should be used.	
Optional/General comments	The manuscript can be accepted and published after addressing the issues mentioned above.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
