

SDI Review Form 1.6

Journal Name:	Chemical Science International Journal
Manuscript Number:	Ms_CSIJ_55137
Title of the Manuscript:	Electrochemical Impedance Spectroscopy (EIS) Study of a dye extract.
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The document does not have the correct format of a scientific paper. It is missing the experimental section. Only seven references are not enough. Include recent references.</p> <p>It is easy to note that the information in the abstract is not complete. The abstract should include: What did you do? how did you do it? Why did you do? And What were the most relevant results?</p> <p>The introduction section should be improved, the state of the art about the topic is very extensive.</p> <p>The quality of the figures should be improved. And if they were copied from some source, please include the reference.</p> <p>The analysis of the results should be strongly improved. And the conclusions as well.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
