<b>Compulsory</b> REVISION comments	The review discusses the current prevalence, risk factors and treatment strategies of diabetic kidney disease in Indian population. The manuscript documents the alarming rate of increase in the incidence of diabetic kidney disease while reiterating the importance of glycemic control and blood pressure control in type 2 diabetes in order to prevent diabetic nephropathy. Current strategies in the management of the disease is also summarized clearly. Overall the manuscript is a comprehensive and good work that I am glad to recommend it to be published. Minor editing to language and grammatical errors is required. Other than this small correction, there is no any concern and the manuscript can be considered for publication.
