Manuscript Number:	Ms_IJMPCR_52405
Title of the Manuscript:	Sunitinib Use for Metastatic Renal cell Carcinoma Associated with Necrotizing Cavitory Pulmonary Aspergillosis with Aspergillus flavus: Case Report and Review of Literature
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors present a well-documented case report on opportunistic fungal infection in a patient with renal papillary tumor who underwent radical nephrectomy and treatment with sunitinib after pulmonary and cerebral metastasis. The manuscript is well written but there are too many abbreviations without their meanings that make understanding difficult.	
Minor REVISION comments	The authors present a well-documented case report on opportunistic fungal infection in a patient with renal papillary tumor who underwent radical nephrectomy and treatment with sunitinib after pulmonary and cerebral metastasis. The manuscript is well written but there are too many abbreviations without their meanings that make understanding difficult.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
