

SDI Review Form 1.6

Journal Name:	International Journal of Pathogen Research
Manuscript Number:	Ms_IJPR_52123
Title of the Manuscript:	ISOLATION AND MOLECULAR CHARACTERIZATION OF <i>Candida</i> SPP FROM POULTRY BIRDS WITH SYMPTOMS OF CANDIDIASIS IN ADO EKITI, NIGERIA
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Original article on the fungal flora of the genus <i>Candida</i> present in poultry in Nigeria	
Minor REVISION comments	I recommend that when talking about the genus <i>Candida</i> rephrase as a fungus of normal flora that can behave like an opportunistic pathogen if the conditions of the host are not appropriate. And even though it is a molecular identification, I think it is important to mention if it is statistically significant or that tests can be performed or if the sample is statistically sufficient to say that it is the cause of poultry diseases.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
