

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Journal of Research and Reports in Hematology</a>
Manuscript Number:	Ms_IJR2H_64718
Title of the Manuscript:	COVID-19Pandemic: Laboratory Diagnostic Methods and Related Biosafety Regulations.
Type of the Article	Review Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Congratulations for the manuscript, it is well written. I Have some questions and coments: Introdution: the introduction was very well constructed, initially it defines the disease and classifies the etiologic agent, but this is very extensive, this part of the text (introduction) is constructed with the aim of situating the reader on the topic that will be approached and ideally it should not be too long, which differs from the present text. Figures are attached to the article, but these figures are not cited in the body of the text. All figures must be cited in the text before being attached.</p>	
<b>Minor</b> REVISION comments	<p>The introduction is very well written, however, it is very extensive, I suggest reducing the size. Figures are attached to the article, but these figures are not cited in the body of the text</p>	
<b>Optional/General</b> comments	<p>I really liked the manuscript and I found it very interesting when it brought the safety levels of the lab, congratulations.</p>	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
