Manuscript Number:	Ms_IJTDH_61247
Title of the Manuscript:	“Natural Antimicrobial Peptides: An emerging therapeutic agent against pathogens”
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Line number should be included as well as page number. Statements should be adequately cited throughout the manuscript.</p> <p>References should be inserted at the appropriate text.</p> <p>The manuscript contains good information. However, they need to be sequential arranged. I recommend the manuscript to be rewritten and reviewed by a native English speaker before resubmission and consideration for acceptance.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
