

SDI Review Form 1.6

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_52036
Title of the Manuscript:	Malaria parasite infection in some periurban and rural communities in Ekiti State, Nigeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>What is the originality of the study? What contribution does it make? What is the problem? If it's just the plasmodial infection, it's very common in Africa The conclusion is to be reviewed because the difference in prevalence between the peri-urban and urban environment is not statistically significant</p>	
Minor REVISION comments	<p>Give the reference number of the Ethics Advisory Committee letter</p> <p>Table 1 for calculating the sample size is not necessary. Simply give the size of the population after explaining the sampling method</p>	
Optional/General comments	<p>Result Give the sex ration</p> <p>Discussion: Parasite prevalence in the general population can not be compared with the prevalence of pregnant women. Pregnant women are a target group. They have immune depressed during pregnancy. Therefore they are more susceptible to infection</p>
