**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>The authors describe the isolation and characterisation of micro-organisms from millet incubations or cultures. They proceed to control growth at acid pH, tolerance to bile salts, growth at different temperatures and anti-microbial activity. The results obtained indicate that they fulfil the established objectives. The work is clearly written and well ordered. The data have been well presented. In my opinion the work deserves to be published. The work makes a useful contribution to the use of microorganisms in food and human health.</p>
