

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Advances in Mathematics and Computer Science</a>
Manuscript Number:	<b>Ms_JAMCS_54028</b>
Title of the Manuscript:	<b>An Immersed Finite Element Method for Planar Elasticity Interface Problem</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It is better to give a more comprehensive introduction about the methods for solving composite material problems before focusing only on the IFE method. A great many methods have been proposed to solve this problem, for example, the matched interface and boundary method, the immersed interface method, the Petrov-Galerkin finite element interface method, etc. Too many references are cited in one group when introducing the IFE method.	
<b>Minor</b> REVISION comments	The authors need to proof-reading the paper carefully to avoid grammar errors and typos. For example, "gived" in the first line of the Numerical examples part should be "given", "text" in Example 1 should be "test", etc.	
<b>Optional/General</b> comments	This paper is a continuation of the authors' previous work in [24]. In this paper, the authors proved the approximation capability in L2 norm and H1 semi-norm, and the theory is demonstrated by numerical examples.	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	<b>Liwei Shi</b>
Department, University & Country	<b>China University of Political Science and Law, China</b>
