

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_60342
Title of the Manuscript:	A Mathematical Modeling of Tuberculosis Dynamics with Hygiene Consciousness as a Control Strategy
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There is no compulsory errors	
Minor REVISION comments	Minor error at pg 7, instead of W in the last equation (4.3), it is G. The stability results are given using the basic reproduction number R_0 and this is general and could be used without the hygiene variable. It would be interesting to rely the hygiene consciousness variable with an optimal control argument to be sure that it constitutes the major factor for the stability of the endemic equilibrium. The authors could fit this issue but it's optional	
Optional/General comments	The paper can be published after minor revision	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
