PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It is quite commendable authors' efforts to analyse available technological developments in the enhancement of the bioavailability of orally-administered antineoplastic agents. I however regret that authors still need to update the text; unless field doesn't attract much research which I don't think so. On another note, acronyms should be defined wherever used in text; work is not only aimed at field experts. Few cases are P and BCS.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
