PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The present paper has an interesting, actual and relevant theme. It is also coherent, cohesive and objective. I suggest some additions in order to make it detailed. Therefore, you must:</p> <ul style="list-style-type: none"> (i) write brief comments explaining what are the H&E, the DRE, the XLStat Version 2019 and the ARCHITECT i2000SR; (ii) write brief comments explaining what are urinary, bowel and sexual dysfunction; (iii) give examples of factors that may contribute to the activation of oncogenes; (iv) differentiate the terms sexual impotence, loss of erection and erectile dysfunction. 	
Minor REVISION comments	I believe it would be interesting develop the conclusion. It is too summarized.	
Optional/General comments
