PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It would be very useful to add in the "Introduction" section the purpose, objectives and hypothesis of the research. I recommend the authors to present the novelty of this research compared to previous research. The paper is too theoretical and is not based on empirical research. The authors must develop the conclusions. Authors should cite papers published in journals indexed in Web of Science
