Compulsory REVISION comments	<ul style="list-style-type: none"> - Abstract must be re-written. The way the abstract is written is a bit confusing. - The research questions in page 2, must be refined. - The author did not mention what sampling techniques s/he used? Why BPK Penabur was chosen at the location of the study? Need clarification. - The discussion is too MESSY. I never see here the discussion of REGRESSION ANALYSIS which is the main result of this article (see page 7) - Before fitting the multiple regression models, a multicollinearity test must be conducted to examine the correlation between variables (see page 8) - Very simple conclusion. No argument in this part.
