<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	In this manuscript, the authors presented the structural, electronic, and electrochemical properties of the vanadium disulfide material for energy conversion and storage applications. The manuscript was well organized and written. But storage applications as part of the title, there are few mentions in the manuscript, as well as discussion of them, in spite of the plenty data in the literature. I recommend rewrite the title.	
<b>Optional/General</b> comments
