Manuscript Number:	Ms_JOCAMR_60401
Title of the Manuscript:	Antifungal Activity of Senna alata, Senna bicapsularis and Pityrogramma calomelanos
Type of the Article	Original Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It is very good written article but what is the new? already as you know the antifungal effect of these plants approved by many author so you have to clarify the new aim and results of the research to increase its value. Also I prefer to add the control +ve and -ve to the antimicrobial test. Also add the reference to the statistical analysis. Write the conclusion as a conclusion not as the results.	
<b>Minor</b> REVISION comments	Accept with minor revision	
<b>Optional/General</b> comments	Accept with minor revision	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
